And You May Never Look Around Again*

# Corporate Overview

Uchil Group of Companies is a leading Information Technology products and services provider based in Pune, India. Promoted in 1992 by a group of entrepreneurs with experience in finance and IT, today it has grown to a 300 people group with the corporate office at Pune, India and presence through sales/support offices in 45 cities across India.

With a vision to be an innovative, profitable IT group with world-class products and services, the Uchil Group has been configuring software solutions for more than a decade for the finance & banking verticals.

We ensure that our products and solutions meet your needs and reflect international standards, business trends and technological developments.

Specialized in finance & banking verticals, the group has developed products in banking, HR, supply chain management and has built competencies in Microsoft framework, Magic, and Java.

## NextStep Infotech Pvt. Ltd.

An ISO 9001:2000 company with 1800 live sites of *CheqMate™* - Total Branch Automation solution. Initiating with consultancy to final implementation, NextStep has developed a practical and consistent approach to banking automation assignments. Started in 1994, NextStep's customer acquisition is on the rise year after year. From public sector to private banks...all believe in NextStep because we support our customers throughout the life cycle of our products.

## DataVision Escrow Services Pvt. Ltd.

DataVision Escrow Services was established in the year 2002. Some of the nationalized banks in India depend on this company to keep their invaluable source code of their banking software's under an escrow arrangement. This reflects the integrity of the group and the trust reposed by the banks on us.

For large banks and the co-operatives, domestic and international clients, we have become a model like partner.

Our processes are certified to ISO 9001:2000 specifications. All our products undergo third party audit.

# Our Products

## *DataMate*<sup>™</sup> - Centralized Banking Solution

*DataMate*<sup>™</sup> is a comprehensive, tightly integrated centralized banking solution. *DataMate*<sup>™</sup> is a single database solution eliminating the need for middleware and integration requirements that come with it. It also eliminates the operational risks of interfacing requirements inherent to multi-product solutions. Completely modular, *DataMate*<sup>™</sup>, can be configured to individual bank's requirements, accounting rules and specific report patterns. Highly flexible and easily scalable, it allows the customers to grow efficiently.

Developed using J2EE/JAVA and Oracle, it has the gateway for multiple databases.

Any Branch Banking, Internet banking, Multicurrency, Multilingual features with embedded interface using ISO 8583 Gateway for ATMs, POS, integration to financial switches and other delivery channels make it truly 'core' banking.

## *CheqMate*<sup>™</sup> - Total Branch Automation Solution

*CheqMate*<sup>™</sup> is clearly the product of minds committed to understanding the customer's world of branch banking automation and making it a better place to do business; seamlessly and efficiently. Powerful functionality of the system with extensive parameterization, hotkeys for every common functionality, on-time implementation, continuous product enhancement and attentive customer care make *CheqMate*<sup>™</sup> a household name in the banking industry.

1800 plus live sites; availability on multiple platforms - Novell Network, HP UX, SCO UNIX ; multiple databases - Btrieve, CISM, Oracle; integrated and modular - Savings, Current, CCOD, Deposits, Loans, BG, LC's, Lockers with interfaces to all the delivery channels - ATMs, POS, SMS Banking, Phone banking, Any Branch Banking clearly makes *CheqMate*<sup>™</sup> a winner.

*DataMate*<sup>™</sup> works on an open platform and also has its own report writer. These unique features of *DataMate*<sup>™</sup> make it suitable to be used by a group of banks thus enabling an outsourcing service provider to make it an attractive proposition for the small banks.

## *ApexMate*<sup>™</sup>

Integrated Branch Banking for Apex and District Central Co-operative Banks with Head office functionalities. Includes all features and specifications of *CheqMate*<sup>™</sup> in addition to MAS / AIMAS, Borrowings, Payroll, Funds, Shares.

## *PeopleWise*<sup>™</sup>

Feature rich HR application from recruitment to retirement includes all the necessary HR functionalities including capture of employee details, payroll processing, objective setting, performance appraisals and training modules.

## *RiskMate*<sup>™</sup> - Integrated Financial Risk Management Software

*RiskMate*<sup>™</sup> is designed to manage complex financial routines in an environment with low tolerance to risk and high sensitivity to cost. Based on modular design that integrates with other systems, *RiskMate*<sup>™</sup> is what you would expect from a company as thorough as DataVision. System functionality precisely matches customer requirements, and implementation as methodical as it's creators.

Advanced Analytics, Convexity, Mark to Market using NPV Method, Sensitivity Analysis for the Portfolio Valuation using various Curve Shifts, integration to SWIFT, FAS 133 accounting standard are some of the important features of the solution.

# Our Practices

Operating in highly mature and process-oriented setup, the companies have developed expertise in multiple technology platforms:

## Sun-J2EE

We have a strong suite of technology skills and demonstrated expertise in the Internet middleware technologies space. We offer full life cycle J2EE and Open Source Java consulting services, from analysis and development through integration, deployment and ongoing systems management.

Our consulting and development services span a broad spectrum of technologies and design concepts encompassing web technologies, database connectivity, transactional systems, business components and service-oriented architectures. Whether authoring complex EJBs, using Swing and the ATW, or launching a Mobile Edition wireless application, we have the knowledge and experience to provide the solution.

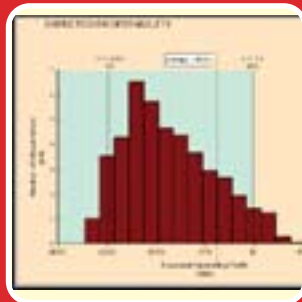

## Microsoft

We have a dedicated and experienced Microsoft Practice group. The group has over 100 plus person years of in-depth knowledge in verticals such as Banking and Financial Services, Retail and Supply Chain Management.

We have extensive experience in creating and delivering end-to-end solutions on Microsoft platform including Microsoft .Net technology to global clients. Our Microsoft group of software developers, systems engineers and business analysts can help you substantially shortcut the deployment of your business solutions and achieve a more productive result by providing efficient services.

## Web Technologies

We have strong skills in JSP, ASP, Pearl PHP, ASP .Net, MySQL, Apache Administration and IIS Administration. Our web technologies experts can cater to every need of the customer.

## Magic

Magic is a platform and OS independent Rapid Application Development and Deployment (RADD) tool developed by Magic Software Enterprises. Magic enables ultra fast development of new application as well as customization of existing application as compared to any other. Using the large number of gateways developed with most RDBMS platforms, the application can be easily migrated without many changes.

*CheqMate™*, which is one of the leading integrated banking solutions in India for Total Branch Automation, is developed using Magic.

## Databases

We have excellent skills in Database Management. Our Oracle and SQL consultants have knowledge and years of experience to support our customers in every aspect of database.

## Project Management Capabilities

We undertake and implement projects using our Uniform Project Management methodology. This conforms to the best global practices in the industry. Our project managers have years of experience in managing time critical projects in the domestic and international segments. Our customers gain by our best practices in terms of timely implementation, quality of services, documented approach and timely communication.

Be it a product development or a high impact project, we do it methodically. Every project is a success story, done within budget, time and to the satisfaction of our customers.

## Center of Excellence and Central Support
